---

## SUMMARY

I am proficient in C++ and DSA (Data structures and algorithms), as well as front-end technologies such as HTML, CSS, and JavaScript. I am also experienced with CSS frameworks like Bootstrap. Additionally, I have worked as a video editor. With a strong foundation in computer science and a passion for programming, I am skilled in object-oriented programming and have created various projects using C++, STL, and data structures such as student management systems, bank management systems, cricket match systems, and user login forms.

---

## PROJECTS

### **Student Management system (with Admin & Student Dashboard) | Govt college jhang Sadar | March 2023 - March 2023**

- This Project is very useful for both Students and admin because you can add, remove and modify student information and others. This project was created by using C++ along different data structures.
- This project Contains a student and Admin dashboard and redirects you according to your login information.

### **Cricket Match System (All teams details) | Govt college jhang Sadar | April 2023 - April 2023**

- This project was built on the command line using C++, enabling users to check upcoming match details, team member names, and other relevant information.
- It includes the number of matches won or lost by a particular team, as well as the name of every team member and their respective captain, and provides an overview of which team is performing well.

### **Bank management system | Govt college jhang Sadar | February 2023 - February 2023**

- In the bank management system you are able to make transactions, add new customers, delete existing accounts, and transfer money from one person's account to another person's account, all account details and past transaction history.

### **WordPress Website | Bright Eaglets College | September 2022 - September 2023**

- Using WordPress CMS I have created a website for a college where I have done my Web development internship.

---

## EXPERIENCE

### **Software Developer | Govt college jhang | December 2021 - May 2023**

- Develop different projects on the command line using C++ (OOP) and DSA (Data Structured and Algorithm).
- These projects are based on Real life problems Like Student management systems, Bank management systems, and Software for Players with different dashboards for users and admins with security protection.

### **Video Editor | Bright Eaglets college | Jhang Sadar | May 2022 - February 2023**

- Edited footage for various YouTube channels and college Lectures using various software like Adobe Premiere Pro, Camtasia, and Filmora.

### **Web Developer | Bright Eaglets College | Jhang Sadar | February 2022 - February 2023**

- During my Internship at the college I worked on different Programming Languages Like (HTML, CSS, and JavaScript) and also CSS frameworks like Bootstrap.
- Also use PHP for just creating a database using SQL.
- During Web Development we have used different CMS(content management system).

### **WordPress Developer | Bright Eaglets college | Jhang Sadar | January 2022 - July 2022**

- Redesigned various custom themes to improve user experience and functionality of WordPress websites and I have created different sites for Bright Eaglets College.
- Also create a site for our college using WordPress CMS along with my team.

---

## EDUCATION

**B.S Computer Science | Govt Graduate College Jhang | Jhang Sadar | 2025**

**F.S.C (In mathematics) | Punjab Group Of colleges Jhang | Jhang Sadar | 2021 | Marks: 939**

**Matric (In computer science) | Arqam Secondary school Jhang | Jhang Sadar | 2019 | Marks: 907**

---

## CERTIFICATIONS

---

### **Web Development & Designing | National Vocational and Technical Training Commission | 2022**

Certified in website designing and development using (HTML, CSS and JavaScript) with Bootstrap framework

---

## SKILLS

---

- 1. Programming:** Proficient in C++ with DSA, as well as HTML, CSS, and JavaScript
- 2. Video Editing:** Experienced in video editing
- 3. Website Development:** Skilled in website development, including WordPress
- 4. Graphic Designing:** Knowledgeable in graphic designing techniques.
